Prof. Dr. Ali Dad Chandio is a renowned academic and Materials Science and Engineering consultant. A recipient of a prestigious British scholarship from "The University of Manchester" (UK), he has over 140 research publications and leads the Advanced Materials & Sustainable Environments group at NED University. As Chairperson of Metallurgical Engineering, he supervises MEngg and PhD students. Dr. Chandio consults for major institutions, including the Police Department, Home Department, and World Bank projects, contributing significantly to NED's financial growth and engineering innovation.
