I. OBJECTIVE

A responsible position in a result oriented company that seeks an ambitious and career conscious individual, where acquired skills and knowledge will be utilized towards continuous growth and advancement

II. EXECUTIVE SUMMARY

A customer-focused and goal-oriented individual, well equipped in system with multi-dimensional work experience in Apparel Manufacturing, industrial engineering.

Produced exceptional results by accomplishing corporate objectives by improving Quality, increasing productivity, and reducing losses by sharing a clear vision, coaching, open communications, prompt feedback & corrective action.

III. PROFESSIONAL EXPERIENCE

NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY

FEB 2020- TILL NOW

DEPARTMENT OF TEXTILE ENGINEERING

LECTURER

- Teaching Apparel related courses.
- Design course outline of "**ADVANCED GARMENT MANUFACTURING**" offered in final year.
- Design course scheme for **Garment specialization program**.

RAJBY INDUSTRIES

AUG 2015 – JAN 2020

Manufacturer & exporter of Denim & Flat products. Working on chain system, equipped with computerized machinery. Supplier of Brands like ZARA, H&M, BERSHKA, C&A etc.

Senior Manager Central Planning

- Developed complete MIS from order confirmation till shipment.
- Thorough analysis of capacity of complete organization as well as plant wise allocations of orders.
- Introducing Oracle for complete reporting.
- Introducing concept of data centers for accuracy of reports and on time data monitoring.
- Follow-ups of all production related issues.
- Follow-ups of all supply chain related issues.

- Generate alerts for Order Bookings.
- To save AIR shipments, since last year no Airing.

Gul Ahmed Textile Mills (Apparel Division)

MAY 2014 –JULY 2015

Leading manufacturer and exporter of non denim apparels. A grade supplier of Brands like AUCHAN, NEW YORKER, DEBENHAMS BERSHKA, , ZARA etc.

Senior Manager Planning and Pre Production

- Developed complete MIS from order confirmation till shipment based on Oracle Business Intelligence Tool.
- Involved in developing a comprehensive system for all pre production and RFC activities.
- Designed a process for better fabric utilization and fabric consumption control in order to avoid surprise shortages and left over fabrics.
- Responsible for fabric shade and shrinkage controlling activities.
- Execution of all the activities regarding fabric incoming, issuance and fabric storage.
- Coordination with fabric department for status of upcoming fabric.
- Heading all cutting operations having output of 15000 pieces/day.
- Responsible for all the outsourcing of stitching operation.
- Making and follow up of Pre Production TNA.
- Coordination with merchandising and stores for all the status regarding trim and accessories.
- Responsible for unit wise style allocation.
- Responsible for making line wise stitching plan.
- Style wise washing and finishing plan as per priorities of order
- Computation and follow up of monthly sales value and circulate discrepancy in case of the difference between achieved and planed to the concern.

ARTISTIC MILLINERS Ltd (Green Unit AM4) **MAY 2013 – MAY 2014**

Leading manufacturer and exporter of apparels. A grade supplier of Brands like GAP, MANGO, BERSHKA, H&M M&S, C & A T&T, ZARA etc.

Manager Planning & Production

- Analyzed, designed, developed and maintain different modules of Management Information System to facilitate and online monitoring of production.
- Management of 1300 + workforces.
- Planning & Execution of all activities as per plan generated by central planning department.
- Arrangement of Sewing equipment and set-up of lines as preproduction schedule.
- To conduct trail run of new development to proactively judge possible problems and their solution
- Execution of sewing operators training program.
- Execution of cross functional training program of operators and helpers.
- Development of attachment and Work-aids for automation of process.
- Execution of Quality improvement plan.
- Implementation of continuous flow system from stitching till packing.
- Implementation of lean inspection system to reduce Quality inspectors with same level of quality
- Implementation of 5s activities to improve work place environment.

- Reduction of Direct to indirect work force to improve costing efficiency.
- Implementation of VSM to identify and removal of waste within the production system.
- Establishment of new manufacturing lines from untrained operators.

RAJBY INDUSTRIES

JAN 2007 – April 2013

Manufacturer & exporter of Denim & Flat products. Working on chain system, equipped with computerized machinery. Supplier of Brands like ZARA, H&M, BERSHKA, C&A etc.

Manager Planning & cutting

- Production planning, work scheduling and making of TIME & ACTION plan for all the orders.
- Implementation and execution of ERP system from cut to pack.
- Estimating of quantity and cost of production.
- Directly involved in material resource planning, job scheduling, capacity planning, facility planning, line planning, follow-up and execution.
- Introduction of KPI dashboard an effective reporting tool.
- Reconciliation after shipment of each and every order.
- Enhanced productivity and reduced cost of CUTTING ROOM by centralizing cutting of two production units.
- Did complete time and motion study of cutting, stitching& finishing.
- Work on saving fabric by controlling the utilization of the fabric which is the biggest contributor to the cost of any garment.
- Design complete SOP for pre-production, established RFC department which helps to reduce rejection percentages.
- Work on fabric saving, marker planning & markers efficiencies.
- Maintain and record fabric consumptions. Did fabric reconciliation for cutting department.

IV. EDUCATION

- | | |
|------------------------------------------------------------------------------|-----------|
| • M.E, Industrial Management
NED University of Engineering and Technology | July 2010 |
| • B.E, Textile Engineering
NED University of Engineering and Technology | Dec 2006 |
| • Intermediate, Pre engineering
Govt. Degree Science College Malir cantt | 2002 |

V. OTHER FORMAL TRAINING

Pakistan Institute of Management

- Team Work Getting People to Work Together
- Time management

SMEDA

- Cost Reduction Techniques through Application of Lean Production System.

PRGMEA (GEN-PROM)

- Industrial Engineering Applications in Apparel & Home Textile.

National university (FAST)

- Training on Production planning using MICROSOFT PROJECT PROFESSIONAL 2003.

Textile institute of Pakistan

- Training on INDUSTRIAL ENGINEERING in the garment manufacturing unit to establish I.E department in factory.

UNDP (GENPROM)

- Garment Engineering and Industrial Engineering training from KSA-TECHNOPAK under the supervision of United Nation Development Program

VI. PERSONNEL INFORMATION

- FATHERS NAME : SYED ZAHID ANWER
- MARITAL STATUS: MARRIED
- DOB: 03 MARCH 1984
